All Night Long the Boom of
Cannon Terrorized
Citizens.

Mexico City, Feb. 18.—President Madero agreed today in principle to the appointment of a president ad interim.

The announcement that Madero had agreed to the appointment was made on the authority of the Mexican foreign minister, Senor Lascurain.

The news of the president's decision became publicly known in the early forenoon.

At that hour the position of the government was fast weakening and the federal troops were apparently becoming demoralized.

Prepare For Exigency.

Washington, Feb. 18.—Further preparations for co-operation between the army and navy for any emergency in the Mexican situation went forward today with the assembling of 2,000 marines at Newport News and Philadelphia from where they are to be transported to a concentration camp at Guantanamo. It was expected the two regiments would sail today. At Guantanamo they will be seventy hours from Vera Cruz.

While a veil of secrecy was thrown about the preparations for mobilizing an army expeditionary force at Galveston from the troops now on the border, it was known that troops as far north as Leavenworth, Kansas, had been ordered in readiness. The order last night to send two of the army transports at Newport News to Galveston disclosed that the general staff was actually organizing for the possibility of a movement from the latter point.

This would leave the first brigade of the first army division, already under marching orders, without ships, but it is assumed that the war department has arrangements with merchant lines under a mail subsidy.

Officials were kept in suspense by the continued censorship at Mexico City, and official dispatches were brief.

U. S. Flagship Sails.
New York, Feb. 18.—The battleship Connecticut, flagship of the North Atlantic squadron, steamed out of the Brooklyn navy yard at daybreak today bound for the United States naval station at Guantanamo, Cuba, where emergency forces, including 2,000 marines, are being concentrated while developments in Mexico are being watched. Although the big battleship was dry-docked when orders were received yesterday from Washington

for her to proceed to Guantanamo, the warship was floated, provisioned and manned within eight hours, and she moved out of Wallabout bay at the navy yard punctually at 5:30 o'clock, the hour set in the orders, under command of Rear Admiral Winslow.

At the same time before the city was awake, there was bustle in the barracks where 300 marines were making ready to entrain for Philadelphia to ship on the transport Meade for Guantanamo.

All but 70 of the marines at the yard were mustered for this service, under command of Colonel J. H. LeJune.

Lane Will Show 'Em.

New York, Feb. 18.—United States Ambassador Henry Lane Wilson is to add editorial work to the manifold duties which he has been obliged to assume in connection with the care of the Americans in Mexico City, since the Civil war began in the streets of the capital ten days ago. Advice here says that all the newspapers in the capital have been seized by the government or have suspended publication because of the peril from shot and shell. It was decided among the refugees at the American embassy that the gap should be filled with a small daily paper published at the embassy for the benefit of Americans and others who have been unable to get papers for a week. It now appears that the Americans virtually have a little city of their own in the capital, for previous despatches have told of the organization of a police force, fire department and hospital service.

Battle All Night.

Mexico City, Feb. 18.—Firing went on practically the whole night from both the federal and rebel positions. In the total darkness it was impossible to ascertain whether any advantage had been gained by either side.

At dawn the artillery duel died down generally, and finally ceased at 5:15. No reason for the cessation of hostilities was known.

Up to a quarter past eight the fighting had not been renewed. The tenth day of the civil war in the capital found virtually no change in the positions of the antagonists, but it was understood that the federals had received reinforcements.

It was thought that the break in the battle meant merely a change of tactics by the federal commander. It was stated in authoritative quarters that no truce had been arranged.

The government troops today obtained possession of the Young Men's Christian Association building which had been in the hands of the rebels since the second day's fighting.

The leaders of the government troops are preparing for aggressive action against the rebel position. It is said they intend to use dynamite grenades and mortar throwing dynamite shells. This is virtually what was announced by President Madero last night.

Important developments are expected to take place in the course of the day.

It was found shortly after daylight that the rebels under Felix Diaz had materially extended their lines and were threatening some of the federal positions.

One rebel battery has been placed in a position west of Nizsa street within a block of the United States embassy and another four blocks east of the embassy.

Up to 9 o'clock, however, these batteries as well as the federal cannon had maintained silence and everybody in the vicinity waited in anxious anticipation for what was to take place.

Silas F. Gilmore, an elderly American who is the manager of an important mechanical works, received three bullets in his right forearm today as he was unconcernedly walking along Colima street. He ran into the middle of a skirmish between detachments of rebels and federals.

Between 9 and 10 o'clock the rebel artillery came into action only casually.

Neither side had yet made any use of mortar fire as had been threatened.

About 10 o'clock the firing became hotter and the big guns of the rebels at the arsenal were brought into play on the national palace with a fierce fire. The palace itself was threatened with an attack by bodies of rebels who had made a sortie.

Desultory and rebel positions were still in progress at noon. The belief, however, was gaining ground that a settlement of some kind would be reached before night.

FIGHT WAGED ON
WORKINGMEN'S BILL

All State Labor Depart-
ments May be Combined
Under One Head.

Concealed Weapons Act is
Also Subject for Some
Debate.

Columbus, O., Feb. 18.—The liquor license code, as framed by the sub-temperance committee of the legislature and endorsed by Governor Cox and administration leaders, will be reported to the joint house and senate temperance committee tonight. If the proposed law is endorsed by the joint committee, it will be placed before the members of the house of representatives for final passage.

Representative Smith Welsh, of Ottawa county, chairman of the house temperance committee, and a member of both the joint and sub-committees, stated today that the bill is in form and ready for presentation. However, he refused to state at the present time the features of the bill.

Lines of battle were sharply drawn today on the Green compulsory workingmen's compensation bill, which went before the senate on a special order at 2 o'clock. Scores of manufacturers interested in the bill were interested auditors to the debate which ensued. Tonight a public hearing will be held on the administration industrial commission bill, which seeks to combine all of the state departments having to do with labor, under one head.

Cleveland Progressive.
Because the city of Cleveland is seeking means whereby it can raise funds for the building or purchasing of a municipal light plant, the bill of Representative Snyder, of Cincinnati, which would allow the city of Cincinnati to go beyond the limitations of the Longworth act to raise money for the building of a traction loop around the city, was referred to Representative Mills, of Cleveland today, that similar provisions might be made to apply to Cleveland. The action was taken by the house cities committee.

Under the Longworth act, the debts of municipalities are limited to five per cent of the total tax duplicate. Along with the Snyder bill, the bill which was introduced at the instance of Mayor Hunt, of Cincinnati, giving the city of Cincinnati the right to build a portion of the proposed loop in the abandoned canal bed, was referred to Representative Mills.

It is understood that City Solicitor Bettman, of Cincinnati, will draft a new bill, containing both of the other bills, and that the new measure will be favored by Representative Mills.

Bankers Protest.
Bankers appearing before the house committee on banks and banking today charged that under the provisions of the bill introduced by Representative George Holl, of Auglaize county, state banks would have to pay ten times as much for inspection as do the national banks.

The Holl bill would charge each state bank \$50 per year plus one-seventy-fifth of one per cent of its total resources. The money would be used for paying the expenses of the state banking department.

James J. Robinson, president of the Ohio Savings Bank and Trust company of Toledo, in his arguments against the bill, charged that the bill, if enacted into a law, would force all state banks to become national banks, and thereby reduce the amount of interest they now pay to depositors.

After listening to arguments by R. J. King of Zanesville, representing

the Baltimore and Ohio railroad and George S. Long, legislative agent for a number of railroad companies today, the house judiciary committee voted unanimously to recommend for passage the Kilpatrick bill known as the comparative negligence bill, which they had opposed. The bill extended to all cases where wrongful injury has been inflicted the comparative contributor principle of the Norris law which applies only to cases under the relationship of master and servant.

The committee killed the Carroll (of Franklin) bill to prevent the manufacturer, sale and carrying of deadly weapons, by indefinitely postponing it. When the bill was called up there was no one present to support it, but the room "was full of dealers in sporting goods who were there to oppose it. The latter had a substitute bill drawn up by John Weld Peck of Cincinnati but it did not meet the ideas of the committee, which immediately voted to recommend the passage of the Williams bill known as No. 33, which provides that it shall be a felony punishable by imprisonment of from one to three years to carry a pistol, dirk, bowie knife or other dangerous weapons concealed.

The committee recommended the passage of the Collins bill making it a specially heinous offense under the anti-trust law for anyone to connive for the artificial boosting of the prices of necessities of ordinary life specifically mentioned flour, meat, eggs, butter and vegetables and provides that anyone who violates the law as to these commodities be sentenced on conviction thereof to the penitentiary for not less than one or more than five years. Imprisonment is mandatory.

Motorcycle Speed Law.

A recommendation for passage also was given the Reid bill bringing the motorcycle under the section that regulates the speed of motor vehicles generally on the highways. Mr. Reed presented a letter from Judge Doyle of Akron in which he called attention to the fact that as the law stood there was absolutely no restriction as to speed placed on motorcycles.

The Young Men's bill establishing a municipal court of labor and the bill establishing a police court in Youngstown were recommended for passage.

Causes the Union Officials to
Place Guards at Com-
mittee Room.

Akron, O., Feb. 18.—Consideration of a wage scale, the first step taken by the striking rubber workers, was begun at 10:30 o'clock this morning. Strike officials say that as soon as the scale the workers will ask is drafted it will be submitted to the managements of the different rubber shops and to the state board of arbitration with the request that arbitration be begun at once.

According to figures given out by strike headquarters this morning 11,000 men and girls are on strike. This estimate is called too high by both police and rubber company officials. The police estimate the number at less than 5,000.

A report that faithful employees of the rubber companies had joined the ranks of the strikers this morning and resulted in guards being placed at the entrances to the committee rooms where the executive board of the I. W. W. local held its sessions.

Still preaching peace the strike leaders declare they are prepared for a long siege.

Claims were made this morning that many of the strikers have returned to work. Several went back to work at the Goodyear, Buckeye and Goodrich plants. H. S. Firestone, president of the Firestone company, said today that all departments of the Firestone were being operated, that a number of men have returned and that others have written letters asking to get back.

The American Federation of Labor has always held aloof from the industrial workers of the world during strikes in other cities. President Thomas of the local Central labor union, admitted today, however, that the local was considering the possibility of assisting the present strike.

Columbus, O., Feb. 18.—By a decision of the supreme court today the Toledo University of Arts and Trades loses its suit to recover a share of the estate of Anna C. Mott, deceased, worth \$6,700, by affirmation of lower court judgments. The holding is that the share goes to the Toledo University, a public body. The other institution is a private one.

The Stolzenbach Baking Company of Lima must stand suit for damages as a result of an accident in which Charles Van Zant, a baker, suffered the loss of fingers.

The heirs of the late Cotton H. Allen, who served two terms as mayor of Columbus, won a big victory when the supreme court, in a decision reversing the Franklin county circuit court, decided that property worth approximately \$40,000, turned over by Allen to the late Edward Denmead, who was city auditor during the Allen administration, for an alleged consideration of \$10,000, should be returned to the Allen heirs upon payment of the money advanced on it.

Board is Supreme.

The supreme court today put teeth into the Kimble act to prevent corrupt election practices by holding that the county election board has authority to withhold election certificates when there is evidence indicating there was fraud in the election of candidates.

This construction of the law is given by the court in overruling the demurrer of William J. Brown, prosecuting attorney-elect of Jefferson county, under indictment for alleged violation of the Kimble act, to the answer of the county election board. In this demurrer, Brown claimed that the board could not take notice of the alleged fraud, and that it was bound to issue the certificate. This contention is overthrown by the court.

This ruling is of vital importance and strengthens the Kimble act," said Attorney General Hogan, who is representing the state in the case, which was brought by Brown to force the board to issue a certificate to him. "It will prove to be a powerful deterrent upon candidates disposed to ignore the requirements of the law designed to purify elections."

Princeton, N. J., Feb. 18.—There will be a Wilson family reunion at the White House on inauguration day in which all the close relatives of the new president will participate. Plans for it are announced by Mrs. Woodrow Wilson. It will probably be held at the hotel where the president-elect will be the guest of his cousin, John Wilson, of Franklin, Pa., and Mrs. John Wilson.

Thirty-five people will compose the party, about twenty of whom are relatives. Members of the new cabinet and their wives probably will be added later. All will be present at the White House at luncheon just after the inauguration ceremonies.

AN ORPHAN BOY.

Manassas, O., Feb. 18.—Vern Armstrong, aged 17, and a brother aged 16 years, orphan boys, who reside in Canton started yesterday for Crestline via the Pennsylvania railroad to visit their grand parents. At midnight the boys attempted to board a moving freight train and Vern, the eldest, was thrown under the wheels and had his right leg cut off at the knee. He was taken to Emergency hospital where it is believed he will recover.

New York, Feb. 18.—The deaths of Captain Scott and four of his men met in the Antarctic will have no effect on the determination of Sir Ernest Shackleton to go south again. At a luncheon in his honor on the eve of his departure for England Shackleton reaffirmed his intention of leading another expedition, as there was "still work to be done" in the Antarctic. "Human lives are nothing," he said, "if by going forth we can add one iota to the sum of human knowledge."

He paid a tribute to Scott and to Commodore Charles Wilkes of the United States navy whose discovery of the Antarctic continent in 1840 has recently been confirmed by the Maxson expedition.

New York, Feb. 18.—The eastern railroads agreed today to arbitrate the demands of the Brotherhood of Locomotive Firemen and Engineers under the Erdman act. This breaks the deadlock.

The decision of the roads was announced shortly before 10 o'clock this morning in an official statement issued by Elisha Lee, as chairman of the conference committee of managers.

"The managers feel," said the statement, "that the public will not tolerate a strike."

Mr. Lee's communication is addressed to Judge Martin A. Knapp, of the United States commerce court and G. W. Hanger, acting United States commissioner of labor, who have been acting as mediators in the dispute. It is as follows in part:

"At the urgent request of you as representatives of the government, and under the strongest protest we are able to voice, the managers' committee agree to arbitrate the firemen's controversy under the Erdman act. The managers also desire to give notice at this time that they shall earnestly request that the board

New York, Feb. 18.—There will be no firemen's strike on the eastern railroads. The railroads yielded today and agreed to arbitrate under the Erdman act the controversy with the Brotherhood of Locomotive Firemen and Engineers. The managers had stood, of a man, for this method of arbitration ever since the deadlock began; the railroads had stood firm for arbitration before a commission of six or seven men.

Three men, acting under the law will decide the firemen's claims. Their decision will be binding.

The firemen selected their representative on the board of arbitration as soon as the railroad's decision was announced. He is Albert Phillips of Sacramento, California, vice president of their organization. The railroads selected as their own W. W. Atterbury, vice president and general manager of the Pennsylvania lines east.

Within a day or two these two men will select the third or neutral member. Within thirty days, thereafter, the arbitrators must render their findings. Judge Martin A. Knapp, of the United States commerce court, and G. W. Hanger, acting federal commissioner of labor, acting as mediators under the Erdman act, at the firemen's request, conducted the negotiations which resulted in today's agreement to arbitrate. Throughout the mediation proceedings the railroad managers bitterly opposed arbitration under the Erdman act on the ground it was unfair to place so much responsibility on the shoulders of the odd man on the board. They vehemently iterated this protest in giving ground today, and declared that their only reason for yielding was that the public would not tolerate a strike.

The firemen themselves admit the defects of the Erdman act and while the present dispute will be settled under the existing law, afterwards, under the firemen's president, W. S. Carter, will meet with the heads of other railway labor organizations and representatives of the railroads to request congress to amend the law in certain respects.

BEAUTIFUL STRUCTURE

Which Will be Erected by
the George S. Cline
Construction Co.

AT ELIZABETH
AND MARKET STS.

Will Soon be Begun and Its
Erection Watched by an
Interested Public.

Work on what will be, when completed, one of the finest jobs of architecture and construction in this part of the state, was started today by the George S. Cline Construction Company, the local firm of contractors who will erect the office building of the Allen County Building and Loan Company, on the old Trinity church site at the north-west corner of Market and Elizabeth streets.

For the past several weeks Mr. Cline has been busily engaged in closing various sub-contracts for the large operation, two local firms benefitting thereby. To Summers and Hardin has been let the contract for the excavation and the Consumers' Coal Company of this city will furnish the large quantity of cement in the construction.

During the past few weeks Mr. Cline has also closed contracts with the Northwestern Terra Cotta Co. of Chicago for the terra cotta material which will be used on the Market and Elizabeth street sides of this beautiful structure and the Champion Iron Company of Kenion, the firm which will supply the structural metal work.

"Weather permitting," said Mr. Cline today, "we will push steadily ahead with this contract and before long will put into operation a full corps of experienced workmen to carry out construction plans which will be interesting to the people of Lima who appreciate present day methods of mastering the rather intricate problem of rapid but dependable building erection. Since the architects, McLaughlin & Holsken, are local people and the George S. Cline Construction Co. is also a Lima company, we quite naturally desire

to place as many sub-contracts with local firms as we possible can for we consider a policy of local co-operation the best for all parties concerned as it assists business here at home and keeps that much more money in Lima."

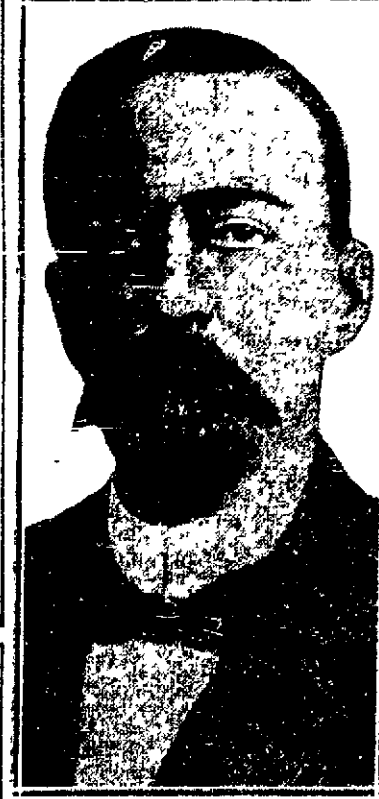

When Burton Holmes recently gave his celebrated travelogue on "Panama" at Orchestra Hall, Chicago, he was seriously interrupted by continual coughing of the audience. No one annoyed willingly and if people will cough colds hoarseness and tickling in throat would use Foley's Honey & Tar Compound they could quickly cure their coughs and colds and avoid this annoyance.

LEGISLATION WAS PASSED

Authorizing Service Director to Proceed With
Improvement.

INCREASE IN
PAY OF FIREMEN

Provided for in Ordinance
Passed by City Council
Last Evening.

Legislation authorizing Service Director Morris to proceed at once with the \$100,000 improvement to the city water works was passed by the city council last evening under a suspension of the rules. The service director will at once advertise for bids, and as fast as possible award contracts for the different kinds of work included in the improvement.

The plan of improvement contemplates an expenditure of \$100,000, \$65,000 of which will be spent in building a 20-inch water line to south Lima, \$20,000 in enlarging and repairing the city pumping station, and \$15,000 in constructing a retaining wall for the protection of the south bank of the upper reservoir.

Of the three improvements, Director Morris considers the enlarging and repairing of the pumping station as by far the most important, and he will hasten to complete this work. New boilers will be installed as soon as bids can be advertised for and contracts let.

Reply to Board.
The special committee, consisting of Staudish, Custer and Finchbaugh, appointed to reply to the local board of health relative to the action of council in not providing a fund for the payment of a city plumbing inspector, submitted the following report, which was adopted unanimously by council, and which will be sent in a written communication to the local board:

To the Honorable Board of Health of the City of Lima, Gentlemen:

Realizing that co-operation, wherever possible, between the various departments of a city's official family has a tendency to improve civic conditions and that a lack of unity in important legislation in most instances tends to retard the progress of a community toward better things, we, the city council of Lima, deplore the attitude of the city board of health toward the former's action in not appropriating \$900 to establish the office of city plumbing inspector.

The charge that the city's legislative body had an ulterior motive in its action, such as politics or any other reason except the best interests of all the people in mind, is too ridiculous to be given more than a passing comment. The city council does now and will continue to sanction the creation of the office of plumbing inspector of Lima whenever the laws of Ohio provide for such an office.

We understand that such a law is proposed and will be considered by the present session of the Ohio legislature but acting as the city's legal diagnosticians, we do not, at this time, consider such haphazard prescription for the city's civic ills either safe or sane. That no resident of Lima would be legally bound to pay one dollar for plumbing inspection for other than public buildings, is in itself sufficient reason for deferring appropriation for a city plumbing inspector's salary until such power is legally provided by the state of Ohio.

That the appropriation ordinance for the first half of 1913 was not allowed to be "railroaded" through without a careful consideration on the part of all the members of the council, is also sufficient evidence to the unbiased mind that the city council considers the welfare of the public at large, whose representatives it is, for greater than the well-meant but impulsive ideas of the individual.

Whenever the laws of Ohio provide for the position of city plumbing inspector, the city council will appropriate money for such an office and not until. Respectfully,

THE CITY COUNCIL,
of Lima, Ohio.

Firemen Get Increase.

An ordinance amending the ordinance regulating the fire department so as to provide an increase in the salaries of the city firemen and officers was passed by an unanimous vote under suspension of the rules, the legislation having been asked for at the last meeting. Under the new ordinance the salaries of the firemen will be: Chief, \$1200; assistant chief, \$1080; captains, \$960; engineers, \$860; firemen, second year and thereafter, \$900; first year, \$780.

The increase amounts to \$10 per month for the chief and assistant chief, and \$5 per month for the captains, engineers and firemen. The annual increase in the city's expense will be \$2,140.

during the year, was passed by an unanimous vote. These bills were incurred in order to protect the welfare of the city, and were necessary. Divided into the different departments, they totalled as follows: Water works, \$7,361.43; public service, \$2,037.16; market house, \$204.65; public safety, \$679.69; public health, \$44.69. City Auditor Simpson certified that there was sufficient money in the city treasury to pay the bills.

Drastic legislation was urged by Alderman Finchbaugh prohibiting the running of street cars with flat wheels in the city. There has been considerable complaint of this annoyance to council from time to time, and only last week, the franchise committee met with H. G. Gilpin, superintendent of the Ohio Electric Railway company to discuss the matter.

Gilpin informed the committee that during cold weather, it was often necessary for the motorman to slide the wheels to stop the cars, and this caused flat wheels. He further told them that he had spent over \$700 in 1912 repairing flat wheels, and assured them that he would endeavor to keep the wheels repaired as much as possible.

At City Solicitor Jackson's advice, Finchbaugh withdrew his motion, and substituted a motion to have the franchise committee meet with the city solicitor, and determine what steps should be taken. The matter will likely be taken up with the public utilities commission if there is further complaint.

Property Owner Objects.
A written protest, signed by J. A. Rhinbolt and others, against the proposed plan to build a sidetrack from the D. T. & I. railroad to the city water works along east Wayne street was tabled after Service Director Morris had stated that the plan was not fully decided upon, and that his department was merely making some preliminary surveys with the view of choosing the best.

He stated that \$1200 annually was being spent by the city in hauling coal to the water works, and this amount could be saved if a sidetrack could be built to the plant.

Rhinbolt addressed the members of the council from the floor, emphasizing the damage effect that the construction of a sidetrack would have on his property and that of his neighbors.

Councilman Keville, in a letter read by the clerk thanked the members of council in behalf of himself and the family for their mark of sympathy sent in remembrance of his father Thomas P. Keville, Sr., who died one day last week. The letter was received and ordered filed.

At the request of Service Director Morris \$400 was ordered transferred from the contingent fund for the purpose of completing a map showing the details of the water works system throughout the city.

The street committee reported unfavorably on the acceptance of a strip of land between Reece avenue and the first alley west, just north of Second street, for the reason that an owner of a portion of the strip was not willing to make the deed to the city. Report adopted.

The paying committee recommended the granting of the petition of property owners for the paving of Lambton avenue between Elm streets and Lakewood avenue, the property owners to bear the entire expense, and construct the paving under the supervision of the city engineer. Report adopted.

A resolution providing for the above, labelled an "emergency" measure, passed at the first reading under a suspension of the rules.

The ordinances levying special assessments on the property owners for the paving of Baker alley from Main street to Union street, and for the paving of Walnut alley from Sugar alley to Wayne street were passed at their first reading.

Member Bryan stated that a local man had made the city an offer to the patrol wagon which was housed

at the city market house. He did not deem the offer high enough, but moved to refer the matter to the safety committee and safety director, which was done.

Safety Director Blank withdrew his request to purchase 800 additional feet of fire hose, which was referred to the franchise committee at the last meeting of the council. Clapper voiced a protest from property owners living along the Otawa river against the practice of dumping refuse in the river. It developed that a committee is investigating this complaint, and will have a report ready at the next meeting.

All members were present, with President Bowser in the chair. Other city officials present were City Solicitor Jackson, Safety Director Blank, City Engineer Clayton, Service Director Morris, and Clerk Lawlor.

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow. CONTRACTORS SHOULD WORRY DURING TESTS.

Washington, Feb. 18.—Intense interest is being taken in the test to be made late today to establish and maintain communication between the great naval wireless station at Arlington, Va. and the scout cruiser or Salem, which now is 1,000 miles out in the Atlantic. The communication, it is planned, will be maintained, if possible, up to a distance of 2,000 miles. None of the navy wireless experts has any doubt of the ability of the station to pick up the Salem today, but there is much speculation as to how much further off the Salem can keep in touch if the tests are satisfactory. The government will pay the final installment of \$250,000 due to the contractors who erected the towers.

There is no better medicine made for colds than Chamberlain's Cough Remedy. It acts on nature's plan, relieves the lungs, opens the secretions, and expels them; and restores the system to a healthy condition. For sale by all dealers.

To House Keepers

What Judge Hollister Thinks Of Cash Register Competition

Cincinnati, O., Feb. 18.—"I have never heard of a legitimate concern having a competition department whose sole duties were not to sell goods, but to prevent the sale of goods by competitors," said Judge Hollister. "The only way that I can characterize them is to say they were petty and mean. This concern made a cash register which was of such value to the business world that millions of dollars could have been made legitimately and such methods would not have been needed. I will not even refer to the acts of Edgar Park, alias Foote, whose acts were so despicable that they ought not to be even contemplated by a business man in good standing."

"You men belong to the walk of life which should set the example yet you have lost the opportunity as given to you by the methods which you pursued. In your desire for gain you forgot everything else. The government is strong enough to protect its people whether this protection extends to the transportation of dynamite across the land for the purpose of blowing up bridges or to the laying of the hands upon men who seek to stifle competition by illegal business methods."

The defendants filed a motion for arrest of judgment.

WILL EXTEND PASTOR CALL

Olivet Presbyterians to Secure Services of Rev. C. P. Goodson.

WIFE OF MINISTER
BEAUTIFUL SINGER

Congregation Meets at Close of the Prayer Services.

At the close of the regular prayer meeting services, to be held at Olivet Presbyterian church Thursday evening, a congregational meeting will be held, at which time, it is expected, a call will be extended to Rev. Columbus P. Goodson of Springfield, Ill., to become pastor of Olivet church. Rev. Mr. Goodson first occupied the pulpit of Olivet church Sunday, February 9, and so pleased was the congregation with his work that it has been decided to extend him a call. There is every reason to believe he will accept the same.

When Dr. Dempster left Olivet church, not only the congregation, but the city mourned his loss, as well. However, with the coming of Dr. Goodson, Lima is indeed fortunate, for he is a minister of renown and son-in-law of the famous evangelist, Rev. J. Wilbur Chapman. He has filled pulpits in St. Louis and Chicago.

When Dr. Goodson was pursuing post-graduate studies in the Union Theological seminary and at Columbia university, New York, he was engaged as assistant to Rev. Newell Dwight Hillis, in Plymouth church, Brooklyn. For five years afterward, he served in St. Louis, increasing a little chapel into a powerful church.

Then he traveled with Evangelist Chapman and has preached in all the large eastern cities under practically every circumstance. He conducted a tour of Canadian cities, where his sermons met with practically the same approbation.

Lima will be fortunate too in securing Mrs. Goodson to claim as her own. As the daughter of Evangelist Chapman, she traveled with her father and sang the principal solos for him. She has been described as one of the most beautiful singers in the country. It has been said of her that she preaches just as good a sermon as did her father or husband, only with her story in song.

With these gifted people in Lima to remain permanently, not only will Olivet church be blessed, but Lima will be made much better for their having come to reside here.

The church is delighted at the prospect of securing them and upon ever hand will a glad welcome be extended to Rev. and Mrs. Goodson.

EAGLES WILL ENJOY A CHICKEN SUPPER.

Social Session Will Follow Lodge Meeting Tonight.

The members of Lima Aerie No. 370, Fraternal Order of Eagles, will hold another of their popular social sessions at the lodge club rooms in the Mohl building on south Main street this evening. The feast will consist principally of chicken. Two of the officers of the Aerie, Dr. Burt Hibbard and John Nichols, will be the hosts on this occasion and all members of the order in the city are cordially invited to be present.

CASE AGAINST VANDERSALL CLOSED

Local Saloonist Pleaded Guilty This Morning and Was Fined \$100 and Costs.

Another one of the slot machine cases was finally disposed of this morning when S. B. Vandersall, proprietor of a saloon on the east side of the public square, entered a plea of guilty to the charge of owning and operating a gambling device for gain. He was given the same sentence as has been imposed on the other alleged slot machine operators by Judge Klinger, namely, \$100 and costs and thirty days in the city workhouse. The workhouse sentence was suspended. Vandersall paid his fine, and was dismissed.

Vandersall was implicated in the slot machine scandal through a confession made in open court several weeks ago by W. C. Carr, of Carey, Ohio, who owned the majority of machines in operation in Lima at the time of the raid over a year ago. Carr stated that he and Vandersall were in partnership together when the machines were first installed. An indictment against Vandersall, charging him with operating a gambling device for gain, was returned by the next grand jury.

Now that the case against Vandersall is settled, there remains only the cases against the Bowersock brothers pending in the local courts.

THE ORPHEUM.

The return of the favorite, Augustus Neville & Co., in "Politics and Petticoats" was greeted at the Orpheum Monday afternoon by a house that was sold out entirely, and two large audiences admired the clever sketch in the evening. Miss Elsie Greasy is an added attraction to the company this season, a dainty little artist who works smoothly alongside Mr. Neville in the sketch that abounds with romance and comedy. Dave Lubin & Company not only won applause with their black comedy and rag-time songs, but their beautiful stage setting and electrical effects is considered one of the hand-somest things of its kind in vaudeville. George Hallman was all that the bills argued he would be and provoked a laugh from entrance to finish. Tony Johnson's "Aerial Dogs" proved a decided novelty in the animal act line.

LIMA CENTER OF MOVEMENT

For the Furtherance of Laymen's Missionary Plans.

HUNDREDS OF MEN WILL TAKE PART

Their Chief Object Being to Arouse Laymen of America.

With the announcement in all the city churches next Sunday of the Laymen's Missionary movement, the first great work in the promulgation of plans for that meeting in Lima will have been launched. The meeting will be held in Lima on Thursday and Friday, March 6 and 7. Hundreds of men in Lima and adjacent towns will take part.

This gathering will be by far the biggest movement which has been inaugurated in this part of the state and with Lima as the center, all adjoining towns will join their forces for good in the meeting. The origin of the movement dates back to six years ago in New York city, when at a prayer meeting of men it was started during the Centennial celebration, from what was known as the Haystack prayer meeting.

It collects no administrators no missionary funds, enlists no missionaries, establishes no mission and in no way supplants existing organizations, nor affects existing agencies. However, mission boards of every church are asked to co-operate and usually do so.

The main object of the movement is to arouse and educate the Laymen of America to a greater sense of their duty, to form adequate appreciation of the church and the obligation of men in times of great emergency, to show men the supreme task of giving the gospel to the whole world, to win them to the assumption of their full share of the responsibility of the home and foreign missionary progress of the church.

Among the men who will be prominent in the movement will be J. Campbell White of New York City, Colonel E. W. Halford and W. E. Douglas, all of whom have taken a prominent part in these missionary movements the world over. Mr. White has already signified his intention of being in Lima. He is secretary of the World's missionary movement and a big man for the place he so successfully fills. Lima is very fortunate to have him, at this time.

Friday will be given over to denominational conference, at which time the waves and means that each individual denomination will profit from the movement, are taken up and discussed.

The great movement will reach a climax in a banquet, to be served Friday evening, at 6:30 o'clock, when it is expected the largest number of men, ever gathered around a banquet table in Lima, will be seated. By the payment of the fee, the holder is entitled to a seat in all the

conferences and at the banquet table.

The general committee work has been in the hands of Frank E. Eberhart, G. A. Herrett, Rev. H. J. Jewett and Rev. Franklin A. Stiles.

B. A. Gramm is chairman of the great movement, R. T. Gregg, M. C. Basinger, T. R. Hamilton and C. E. Lynch, vice chairmen, F. C. Cunningham, secretary and treasurer; R. G. Plate in charge of the finance department; T. P. Riddle, registration; A. D. Hildreth, deputations; F. A. Burkhardt, publicity; C. E. Lynch, statistics; Harry Thomas, dinner; M. U. Basinger, entertainment.

London, Feb. 18.—Miss Zelle Emerson, the militant suffragette of Jackson, Michigan, who is carrying on a campaign of window-smashing in the east end of London in company with Miss Sylvia Pankhurst, was again arrested today. She was immediately taken before the police magistrate and sentenced to a term of two months at hard labor.

Miss Emerson and her companions broke all the windows of the Liberal Association's building at Bow last night.

Miss Sylvia Pankhurst was also sentenced by the magistrate to two months at hard labor.

ASSASSINS OF MANUEL ARANJO SHOT AT SUNRISE.

San Salvador, Republic of Salvador, Feb. 18.—Three of the assassins of the late president of the republic of Salvador, Dr. Manuel E. Aranzazu, were shot by platoons of soldiers this morning. The shooting took place on the Campo De Marte race course in the presence of a large concourse of people.

A council of war on Saturday evening condemned to death seven persons who had taken an active part in the crime. Four of them were arrested, but the others are still at large. One of the prisoners was allowed a respite in the expectation that he would divulge further particulars of the plot.

KNIFE USER IN CUSTODY

Ben Rupert Bound Over to Grand Jury From the Mayor's Court.

CUTTING WITH INTENT TO KILL

Is Charge Preferred Against Him by His Victim, Who Was Unhurt.

The mystery surrounding the cutting affair in the northeast part of the city Saturday night was cleared up last evening in the arrest of Ben Rupert, of north Jefferson street, a lewdster. Rupert's victim was Thomas Avery of West Cairo, who was saved from a horrible fate only because of the fact that the knife wielded by Rupert did not penetrate beyond Avery's clothing.

Rupert was arraigned before Mayor Shook early last evening on a charge of cutting with intent to kill, waived examination and was bound over to the grand jury in the sum of \$200 bond. In default of bail, he was committed to the county jail this morning to await the action of the grand jury.

Avery's coat and vest were ripped open, across the breast, and had the knife penetrated further, would have sustained a serious wound. The attack followed a quarrel in the northeastern end of the city late Saturday night, of which the police had no knowledge until yesterday morning, when the victim filed an affidavit against his assailant.

Shine Fined.
On an execution issued by Mayor Shook, Jerry Shine, bartender for Harry Hughes, of north Main street, was arraigned before the mayor last night and ordered to pay \$10 and costs for violating the ten o'clock closing ordinance, amounting in all to \$166.40. Shine paid up, and the case was dismissed.

Shine was convicted several weeks ago in mayor's court, but neglected to carry the case to higher court in the specified time. He protested vehemently against his arrest last evening, and spent some time in the city prison before the fine and costs were finally paid.

Jennings Forfeited.
"Dutch" Jennings got on one of his "periodicals" last evening, and as usual landed in police station with a large roll of money on his person. After spending several hours behind the bars, Jennings secured his release on \$10 bond, which was forfeited this morning when he failed to appear for trial.

James Craven, the sole plain drunk arraigned in police court this morning, was fined \$1 and costs.

LIMA PEOPLE HAVE FAITH IN HIM.

A condition of affairs that existed
in Columbus at the time of the clos-
ing of the Columbus Savings and
Trust Company—a claim by the of-
ficers of the bank that there was a
larger amount of cash in the bank
when it was turned over to the State
banking department than the offi-
cials of that department represented
that there was—has resulted in the
indictment of Clem S. Baxter, one
of the State bank examiners, by the
Franklin county grand jury. He has
given bond and his attorneys have
asked for an early trial of the case.
Clem Baxter was born and reared
in Lima. Of the third generation of
the name in this city his boyhood,
his youth and his young manhood
have been spent here, and no one
in this city bears a clearer record
than he. His education in banking
was in the Commercial Bank, of
which his father was president, and
F. E. Baxter was cashier.

The confidence the people of Lima
reposed in Clem Baxter was indicat-
ed by the enormous vote given
him when he was elected city treas-
urer of Lima. He ran on the Dem-
ocratic ticket in a Republican town,
against one of the most popular Re-
publicans in Lima and was elected
by an overwhelming majority.

Moreover he repeated the act when
he stood for re-election. His public
service was without a flaw.
That the outcome of his trial will
result in his complete exoneration
from even a shadow of blame is the
belief of Lima people. They all be-
lieve in him; trust him; have the
fullest confidence in his integrity,
and are confident that the trial of
the case and the introduction of the
evidence is all that will be needed
to completely vindicate him.

Those who have watched his car-
eer from boyhood to manhood; who
are conversant with his habits in pri-
vate and public life; those in Lima
who have had any dealings with him
in a business way; those who have
come into contact with him in social
life or in business transactions
will watch with keenest interest
the testing of the case which they
believe will result in the perfect
elimination of even a breath of sus-
picion from the young man whom
they respect and regard so highly.

BANK DEPOSITS GUARANTEE.

Why should the bank depositor
be specially favored in this matter
in preference to others whose claim
is just as good as his? There is no
holder of a life-insurance policy, for
instance. An even better case might

be made out for him. Unlike the
bank depositor, he can not with-
draw his investment at a moment's
notice, and, while it is often that
a life insurance company fails, once
in a while that happens. But the
chief objection to the Bryan plan—
the objection which would be
enough to preclude its serious con-
sideration, is that it penalizes ef-
ficiency and honesty and places a
premium on incompetency and fraud.
At present the well conducted bank
derives a merited profit from the
reputation which it has achieved.
Its business is promoted by the con-
fidence which it inspires. It gets
deposits upon the strength of its
character. But if all deposits were
equally secure it would go where
the most tempting bait was offered.
It needs no argument to prove the
extreme undesirability of this con-
sequence.

Moreover, the proposition is that
the guarantee fund be derived from
assessments to be paid by all the
banks under the federal jurisdiction.
This means that the well managed
banks are to pay the losses of the
banks whose management is bad.
There is no fairness in that. It is
said that the losses from bank fail-
ures are so inconsiderable that a
very small assessment would serve to
provide all the money needed. This
goes to show the needlessness of the
proposed innovation. It does not
affect the vicious nature of the
principle involved.—Philadelphia
Enquirer.

THE HARVEST OF SIEGE GUNS.

There is nothing gentle or merciful
in the appearance of the modern
siege gun. It looks as if it could
spread more destruction in a given
time than all a dozen western torna-
dos. But the record of these
"angels of ruin" are not up to their
vicious aspect.

The report from Turkish sources
—that the siege of Adrianople had
resulted so far in the killing of a
few careless adventurers—is in keep-
ing with reports of other sieges.
The chief result of the bombardments
carried on by the Italian navy against
the cities, villages and camping
places of the Tripolians was to sup-
ply a poverty stricken country with
an amount of steel and iron that
will keep the makers of souvenir
swords and knives in raw material
for years to come. One of the bit-
terest disappointments of the Japa-
nese in their war with Russia was to
discover, after the place had been
surrendered, that Port Arthur was
scarcely grazed by the hundreds and
thousands of tons of metal rained
down upon it.

The Bulgarians may scarce Adri-
anople into surrendering as the Japa-
nese did their enemies. But it is
doubtful if they will batter Adriano-
ple into such a chaos of flying metal
must choose between death or sur-
render, and house bricks that the Turks
render.—Toledo Blade.

WM. J. BRYAN IN HAVANA.

William J. Bryan, who has been
the idol of the democracy of the
United States for the past two de-
cades, has attained a position in the
eyes of people of all political creed
not often reached by any man. He
is now recognized as the foremost
statesman in the nation, whose
words, wherever uttered, carry con-
viction and weight unparalleled. In
a recent edition of the Christian
Science Monitor appears the follow-
ing editorial concerning Mr. Bryan's
recent speech in Havana:

"In the ordinary affairs of life, we
suppose the best way for any two
persons to avoid a misunderstanding
is to see to it that they under-
stand each other. In the beginning
of a misunderstanding the best
plan is to find the cause, and re-
move it. Relations between indi-
viduals should not, and, as a matter
of fact, do not, differ materially
from the relations between groups
of individuals, or between nations.
Diplomacy, and especially diplomacy
of the modern school, should aim to
uncover in their incipient stages
the causes of differences between na-
tions rather than to add to their
growth by following a policy of in-
directed, reticence and aloofness.
It is, we think, to the credit of the
state department at Washington that
it was first, and has been foremost
among the world's foreign offices
in the work of breaking down con-
ventional barriers to freedom of in-
tercourse and freedom of speech be-
tween the diplomatic agencies and
representatives of the nations.

point; one of the latest of them,
strange to say, is brought to atten-
tion by the visit of a non-official
representative of the American peo-
ple to Havana. In that city for some
time past there has been evidence in
certain quarters of a feeling antag-
onistic to the United States. In a
house, the prejudices and antipathies
displayed in the anti-American sen-
timent of the Cuban capital reflected
those that in some mysterious way
have been of late fomented and dis-
seminated rather generally in Span-
ish America.

The other day, in Havana, Wm.
Jennings Bryan, a distinguished
American, was the guest at lunch-
on of the speaker of the Cuban
house of representatives. Several
prominent members of the Cuban
government were present, as were
also the American minister, Mr.
Beaumont, and the secretary of the
American legation, Mr. Gibson. Mr.
Bryan was given an opportunity to
talk, and he availed himself of it by
speaking frankly. He made it clear
in a few terse and impressive sen-
tences that the United States is sin-
cerely friendly to Cuba, and that the
United States has confidence in its
representatives and will uphold
them. He also made it clear that in
the United States politics would not
enter into this matter, and that the
malcontent in Cuba need not look to
a change in administration at Wash-
ington for any encouragement. In
short, Mr. Bryan was so frank, so
positive, and yet so friendly and con-
ciliatory in tone, that his short
speech has apparently changed the
whole situation in Cuba for the bet-
ter. This, we take it, is diplomacy
of the kind that in the past has been,
and in the future will be, approved
by the clearest thinkers among the
public men of the United States.

RESULT OF SUNDAY'S MEETINGS.

Now that the Sunday meetings
are over it may be well to take an
account of stock. There are many
good people who did not favor them
because of the evangelist's violent
and vitriolic phraseology; and like-
wise because of his attacks upon the
religious situation as it is. There
is doubtless some soundness in these
objections and those meetings might
have been carried on with a less
ruffled spirit than they have been.

But in spite of these objections
Rev. Mr. Sunday has been given a
hearing that has not been rivaled in
the history of the church. It is very
important that a hearing should be
obtained, and it is very probable
that Rev. Mr. Sunday's peculiarities
of style may have made this feature
successful. At any rate, twice as
many people went to hear him

The advantage that Rev. Mr. Sun-
day took of these great throngs was
to preach a religion of life and not
doctrine. He had his doctrine, but
its underlying lesson was that of a
pure and honest life. No man ever
brought to the masses the alterna-
tive of right and wrong, of decency
and disgrace, of purity and vice, as
did Rev. Mr. Sunday in proclaiming
his doctrines.

As a result of his mission here,
we should say there is a stronger
moral sense in this community than
there ever was before; and now the
pressing question is, how to preserve
it, how to make it vital in civic, re-
ligious and business life. He has
made of religion a thoroughly prac-
tical matter, and has made the peo-
ple feel it to be that way; and now
it becomes the duty of every one
who loves his neighbors and his city
to put into practice in his own life,
the high lessons of duty, and honor,
and faith, which Rev. Mr. Sunday
has been preaching to us for the past
seven weeks.—Columbus State Jour-

THE IDLER.

For the purpose of holding, buy-

ship has been formed between two
very well known Lima men, and one
stranger. Mr. Gus Kalb, the very
prominent merchant and banker,
who for the past number of years
has been very conspicuous in the
Lima money market, and R. W.
Thrift, are the two Lima men. The
latter of these two has for many
years been in the real estate busi-
ness in and about Lima, and is thor-
oughly conversant with every detail
of that part of their new business.

The third member of the firm is Mr.
G. M. Denzler, formerly a resident
of Terre Haute, Ind., who came to
Lima to take a position with the
Lima Chattel Loan Company. This
new firm will be located on the sec-
ond floor of the Kendall block on
north Main street. They will also
handle real estate, as well as com-
mercial paper.

The remains of John Kissell, the
mortar mixer who met such a sud-

SAVE IT WITH HERPICIDE

Aside from combing it when they
think necessary, many people give no
attention whatever to their hair.
Then when the hair begins to fall
out it never occurs to them that their
trouble is the result of personal care-
lessness.

An occasional application of New-

loss of hair but permits a luxuriant
growth.

Herpicide kills the germ that
causes dandruff and to this germ
most hair losses are attributable. It

keeps the scalp clean and free

**Progressive Association is
Planning to Entertain
Guests.**

All doubt as to whether or not Governor James M. Cox and the party of distinguished state officials and members of the general assembly would visit Lima next Friday were removed today when a dispatch was received at this office today announcing the arrangements for the trip.

The party will leave Columbus on Friday morning in a special car on the Ohio Electric railway, arriving in Lima about noon. In the party accompanying the governor will be members of the state board of administration, members of the house and senate finance committees, Attorney General Hogan, Secretary A. P. Sandies of the state board of agriculture, Secretary of State Graves, State Auditor Victor Donahay, State Treasurer Brennan, and the architect and contractors who have the work at the state hospital.

state hospital, three miles north of Lima, where a thorough inspection will be made of the criminal insane hospital.

Returning, the majority of the party will leave Lima for Columbus about 4:40 o'clock. Governor Cox and Secretary Sandies will go to Van Wert early in the evening to attend a banquet to be tendered the Van Wert county boys who made the trip to Washington on the Buckeye Corn Special, last December. They will be accompanied by T. P. Riddle, of this city, who is scheduled to make an address at the banquet.

It will depend upon the wishes of the party whether or not the original arrangements for the reception and entertainment of the guests perfected by the Lima Progressive association, two weeks ago, will be carried out. At 3 o'clock this afternoon, no official notice had been given the association that the party was coming to Lima, Friday.

These arrangements included a reception by a committee of representative men of the city at the Ohio Electric station, an automobile trip to the Hotel Norval, where luncheon would be served, and an automobile trip to the state hospital and return. It is expected that over 40 people will be in the party, various state house attaches and clerks being included in the list.

The annual banquet of the Men's club of the First Baptist church will be held at the church Wednesday evening, and the menu will be served promptly at 6:30 o'clock, by the Ladies' Aid society of the church, of which Mrs. I. R. Longworth is president. The following will make up the two-course banquet:

Roast Pork Apple Sauce
Mashed Potatoes Cream Sausage
Browned Sweet Potatoes
Pickles Jelly Bread and Butter
Ice Cream Cake Coffee

At the close of the banquet, Hon. N. W. Cunningham of Bluffton, who has made a trip around the world, will speak from the subject, "From Jerusalem to Jericho." Mr. Cunningham is the special guest of honor upon this occasion.

Rev. Franklin Stiles, the pastor, will talk on "Masculinity in Religion." Dr. M. S. Bowsher will give the invocation prayer. A quartette composed of R. B. McKee, George Metheny, Oscar Young and Richard A. Shappell, will furnish music for the occasion.

A large number of invitations have been mailed to men of the city by the committee in charge. W. L. Parmenter is president of the club and Paul Shutt, secretary.

Missionary Women of Market Street Church to Give Splendid Program Tomorrow.

The Missionary society of the Market Street Presbyterian church will hold their regular meeting, Wednesday afternoon at 2:30 o'clock, in the church parlors. All ladies interested in the work are invited to be present. The following program will be given upon this occasion:

Devotional Exercises — Mrs. Thomas Knox
Music of India — (a) Vocal solo, "On the Road to Mandalay," Miss Lillian Johnston
(b) National air, "Kavah Than," Miss Edna Peate
(c) Vocal solo "Kashmir Love Song," Miss Marguerite Zender
Address — Missions in the Orient, Mrs. N. W. Cunningham, of Bluffton
At the close of the program, refreshments will be served. Mesdames Oliver Steiner, Jacob Spiker, Henry Seebers, Samuel Steffens, Morton Sealls, Earl Sealls and all ladies of the society whose names are of the letters S, will be hostesses.

**MISS PIERCE MAKES
DEEP IMPRESSION**

Last Sunday "Foreign Mission Day of 1913," will be a day long remembered by the members of the Spring Street Lutheran church. The two addresses of the day were as announced, delivered by the returned missionary, Miss Phoebe Pierce of China.
Hearing the addresses, it is not hard to understand why the hearers love Miss Pierce. Her unassuming way, her conversation, her unbounded faith captured her two large audiences Sunday. The impression made upon old and young will never be forgotten.
The many curious souvenirs, relics, etc., from the land of slavery, darkness and promise, for the time being, literally carried the hearer back over those ancient walls.
The church is planning if at all possible, to have Miss Pierce deliver another address at a Sunday service before her return to China.

**LEADERS FIGHT

Charleston, W. Va., Feb. 18.—Preparations were completed this morning in the supreme court for the hearing on the writ of habeas corpus by which counsel for the United Mine Workers of America hoped to show that Mother Jones and other labor leaders were being held by the

military in defiance of law. Assistant Attorney General J. O. Hinson and Colonel George S. Wallace, judge advocate of the military commission, were prepared to go into court for Governor Glasscock and the military authorities and ask for delay in order that they might prepare the evidence which they expect to bring against the defendants when they are arraigned before the military court. If the delay is granted the hearing will not take place for several days it was stated.

LITTLE NATIONS.**

Washington, Feb. 18.—The Newport News Shipbuilding company's bid of \$7,325,000 for construction of the new dreadnought, Pennsylvania, with Curtiss turbine engines, was the lowest of all proposals opened at the navy department today.

The Pennsylvania, officially known as No. 35, will not only be the biggest ship in the American navy, but so far as is known will exceed in size any warship so far laid down by a foreign power. Her tonnage will be 31,000—almost three times that of the famous old Oregon already dwarfed into insignificance by the great American super-dreadnoughts.

This latest addition to the navy will cost, when complete with guns, armor and equipment, \$14,175,000.

While only 600 feet long, the Pennsylvania will have a beam of 97 feet, almost as much as it is safe to negotiate in the Panama canal locks. Her draft will be 28 feet 6 inches, which will leave open to her most of the great mercantile ports of the world, a battery of 14 inch guns, the most powerful naval weapons afloat, supplemented by four torpedo tubes and 22 five-inch secondary guns will constitute the ship's battery.

The farewell reception, held in honor of Rev. A. G. Gekeler, retiring pastor of Calvary Baptist church, was given at the Business Woman's club yesterday, in the form of a luncheon at noon and the farewell exercises following. The guest of honor, Rev. Gekeler, occupied the hour of honor at the banquet table. Rev. Franklin Stiles, president of the Pastors' union presided. The meeting was a memorable one, eliciting regrets, good wishes and God's speed from the lips and hearts of all present, assuring the departing pastor that his work in Lima has not been in vain.

At the close of the banquet, resolutions were adopted by the Pastors' union, the committee drafting the same being composed of Rev. G. C. Schaub and Thomas Knox. The resolutions, as follows, were unanimously adopted, as expressing the sentiment of the union:

"Whereas, Rev. Gekeler, for many years a pastor in the city of Lima and a most valued member of the Lima Ministerial Union, is about to leave our city for his new field of labor here.

Resolved, That we the members of the Lima Ministerial Union, (a) Give expression to our heartfelt appreciation of the manifoldness of our departing brother and of our sincere regret at the loss sustained by church and community.
(b) Heartily unite as a Union in wishing Brother Gekeler the Master's choicest blessings in his new field of labor."
Rev. Mr. Gekeler will go to Ada shortly to assume the duties of his new pastorate.

There is no safer investment possible than first mortgage on improved real estate. True, inexperienced persons do not know how to judge values of property and might make mistakes by loaning on bad titles. By investing through the medium of the Lima Home and Savings' Association, in addition to the commonly recognized advantages of real estate mortgages, you get the expert service of men who have successfully managed one of the largest financial institutions in the vicinity for the past 25 years, loaning all its funds on first mortgages. Not a dollar is loaned without personal appraisal and expert examination of the title. The property in every case must be worth one-third more than the amount loaned and protected by fire insurance in a company of approved strength. LYRIC THEATRE.

The Barrett Players at the Lyric theatre last night scored a great hit with Henry Arthur Jones' great comedy drama, "The Liars," the play in which Mr. John Drew made a great success in New York. In addition to possessing a most interesting story the play is filled with bright repartee, and comedy situations that keeps the audience roaring with laughter. Miss Anna May in the part formerly played by Isabel Irving, added to the great popularity already achieved by giving a most convincing and artistic portrayal of this trying role, while the other members of the company lent most adequate support. "The Liars" taken from every standpoint is a most enjoyable play, and will rank with the biggest successes of this clever company. "The Liars" tonight and Wednesday night.

How Many Will Read It?

Did you ever figure out how many people would read that "FOR RENT" sign in your window?

We'll suppose that 1,000 people pass your place daily and see your sign, that's the extent of it.

But a sign placed in the classified column of the Times-Democrat is hung before 40,000 eyes before it is destroyed. It is seen in all directions—the expense is but a trifle.

30 words or less, one time, 25¢; 3 times, 50¢—call us up; we'll take it over the phone.

DAVIS AGAIN BEFORE COURT

Second Charge is Filed Against Sherman Davis by Inspector.

STOLZENBACH CO.

LOST WITH SUPREME

Case Back for Re-trial. One New Suit for Damages Was Filed.

The second case that came before Justice Everett today was an echo of several other cases that have been filed in the past year. It is an affidavit of the state of Ohio against Sherman Davis, and charges that the local restaurant man, on the 12th day of October, sold to A. J. Frey a quantity of milk, about a glass which was adulterated and did not come up to the requirements. The affidavit was signed by H. S. Mesloh, an inspector of the Ohio Dairy and Food Commission.

It will be remembered that a similar charge was registered against Sherman Davis by this same inspector some time ago, in which it was charged that he had sold butterine for butter. This was the successor of a case in the police court, when the inspector was arrested for refusing to pay for a something he had purchased at the restaurant of Mr. Davis. The present case is set for hearing on the twenty-fifth at two o'clock.

A dispatch from Columbus today to the Times-Democrat announced the finding of the supreme court of the state in the case of Charles Van Zant against the Stolzenbach Baking Company. This highest tribunal in the state decided that the defendants would have to stand another trial in the courts. Van Zant was injured in the extent of losing a finger in the machinery at the local plant, some years ago. He went into the court asking damages from the baking company. The common pleas court returned a verdict for the defendants in the case. It was appealed, however, and the circuit court put aside the former finding of the lower court, and returned for a new trial. The defendants went to the supreme court with this, in hopes that the original decision of the common pleas court might be upheld. The message today tells of the upholding of the decision of the circuit court.

Giuseppe Nani, an Italian who came to Lima some little time ago to be employed on the new construction work on the Erie railroad, yesterday afternoon entered suit against this company asking for damages in the amount of twenty-nine hundred dollars. Nani was the victim of an unfortunate accident last fall, at which time he had three fingers so severely mangled that he lost the use of them.

The plaintiff was employed by the defendant company a few miles east of this city near the village of Harrod. At that time, while unloading some ties, a shift in the position of the car holding these ties resulted in the accident to the plaintiff's hand, so he avers.

According to the report that was filed yesterday afternoon with the probate court, the appraisers of the estate of M. L. Bowyer, deceased, have found the total of the personal property. This appraising committee consisted of D. H. Counselor, C. H. East, and D. H. Tolan. The total of the personal property found according to the report was \$53,182.26. This amount is exclusive of the amounts heretofore given to children, as well as of the real property.

Alleging that he was made the victim of his own ignorance of the English language, and that his inability to read this script was taken advantage of by the defendants, Andrew Trautlein late yesterday afternoon entered suit against the Lima Locomotive Corporation, asking for damages in the amount of \$12,450. In his petition the plaintiff avers that he was employed by the defendant company in the year 1906, and that on December sixth of that year he was injured when an engine backed into a pile of brackets behind which he was working. He says that through the negligence of the company he lost both of his legs. That in the following year the company made a settlement with him, agreeing to pay him \$1297 for his injuries, and agreeing to employ him the remainder of his life. He says that this contract was read to him, as he was not able to read English. He says that very recent-ly he for the first time read this agreement, and finds therein contained to clause guaranteeing employment. He says that he is entitled to twenty-four hundred and fifty dollars for the past time that he has not been employed by the company. He says that he was hired for a short time after his recovery, and was then dismissed. He further asks the court for ten thousand dollars from the defendant, as the wages that he would earn in the remainder of his natural lifetime.

H. F. Bushong was brought before Justice of the Peace Emmitt E. Everett this morning on the affidavit of non-support that was filed by the Allen County Humane Society. The charge that the defendant had failed to provide clothing, food and shelter for his son, Charles Bushong, thirteen years of age. The defendant entered a plea of guilty when arraigned, and he was fined ten dollars and costs, and sentenced to ninety days in jail. The jail sentence was suspended, however, as long as defendant obeyed the order of the court and paid three dollars per week toward the support of the child.

with a very serious illness, and this morning when the final call of the grim reaper came, she passed on to her reward without a struggle. For a long time she has been afflicted with liver trouble, and the end was the direct result of an attack of enlargement.

Mrs. Watts was the daughter of Mr. and Mrs. George Brennehan. She was born in Bath township, on the fourth day of September, 1836. At the time of her death she was but 26 years of age. A young mother, her taking is made doubly hard to bear by the fact that there are left on this earth two little children, one barely two years old, the other a mere infant.

The funeral services will be held at the late residence at 925 West High street at ten o'clock Thursday morning. The Rev. Richard will have charge of the services, and interment will be made in Woodlawn.

ELI BRENTLINGER IN CITY PRISON.

East Wayne Street Saloonist Unable to Pay an O. I. Fine of \$100 and Costs.

Eli Brentlinger, east Wayne street saloonist, is once more a prisoner behind the bars of the city prison. He was arrested early this afternoon on an execution from Mayor Shook's court of a sentence passed on September 12th of last year for Sunday selling. The amount of the fine is \$100 and costs. Brentlinger was unable to furnish the amount, and was committed to jail.

The time allowed in which to appeal the case to the higher court had elapsed without Brentlinger taking advantage of his rights, and the mayor ordered execution of the sentence.
